Introduction

The UKG TeleStaff™ Cloud solution provides many standard reports, allowing your users to quickly obtain and analyze the data they need. UKG TeleStaff Cloud uses the familiar environment of Microsoft Excel®. Users can take advantage of all Excel features and functions, such as aggregate functions, pivot tables, formatting, increased report font size, and more.

Accruals Report

The Accruals Report displays all employee names, with the organization-defined accrual codes showing each employee's balance, earned/remaining hours, and taken/in-period hours.

UKG TeleStaff Cloud

Features and benefits:

- Provides timely and easy access to data on those employees with accrued time
- Warns administrators that an employee has the time available before the person requests leave
- Can be filtered by date range, rank, shift, and individual employee
- Includes common accrual codes: vacation, sick leave, and compensatory overtime
- May be printed, faxed, or exported in Excel-supported formats

Assignment Report

The Assignment Report provides assignment information for personnel. This report can be very useful when you feel personnel may be out of place on the Roster, which is usually the case when initially building the Roster in implementation and/or when adding more organizations and personnel assignments.

UKG TeleStaff Cloud:

Features and benefits:

- Displays the name of the person who made the changes
- Lists the types and times of changes made
- Displays what area of UKG TeleStaff Cloud was modified or affected
- Provides the type of change that was made and a description of where the change occurred, including a summary of the changes
- May be printed, faxed, or exported in Excel-supported formats

Contact Log Report

The Contact Log Report displays all the attempts that were made to contact staff members during a given date range.

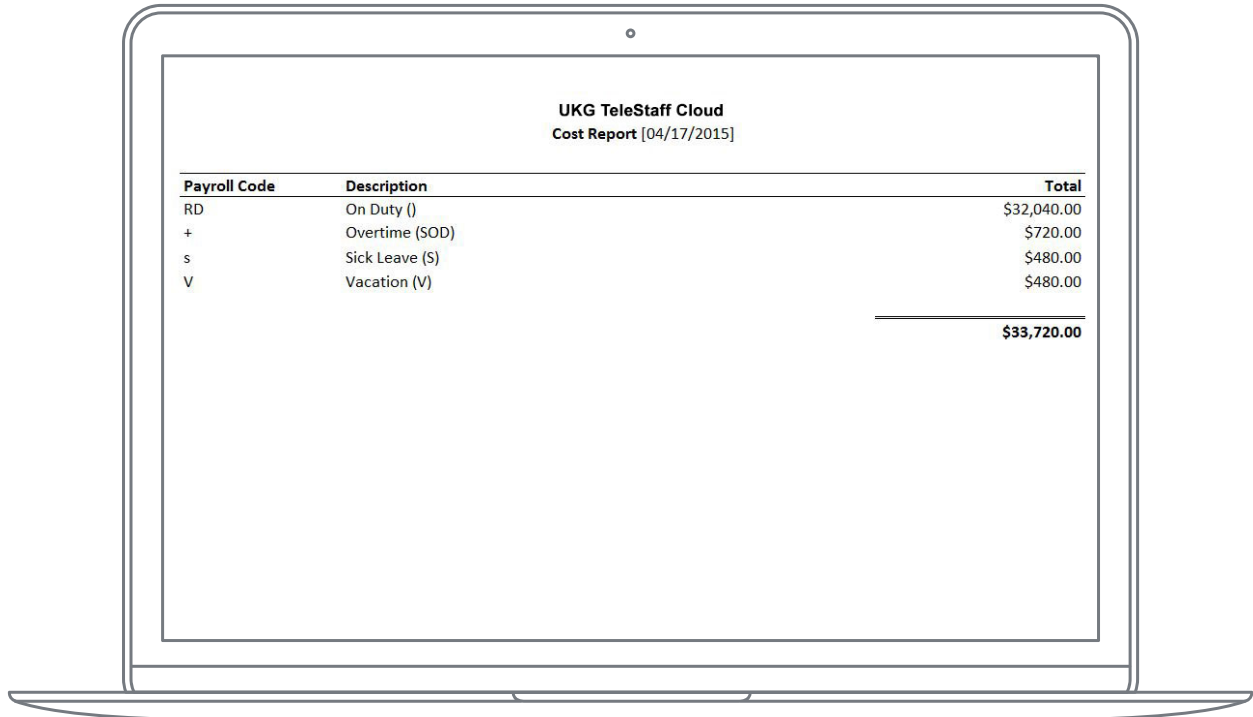

For Date...	Type	Contact	Status	Listened	Expires
00141 Alba, Jose					
🕒 04/16/2015	B	Fill Vacancy	Initiated		04/17/2015 15:58

07:30	07:30	1//Engine 1/Engineer	as Emergency Hire		Overtime (SOD)

Features and benefits:

- Includes an extensive list of why a staff member was contacted, by whom, and the outcome of each contact
- Shows all forms of contact — opportunity, notification, message, and alarm — in this window
- May be printed, faxed, or exported in Excel-supported formats

Cost Report

The Cost Report displays the estimated total costs associated with each work code used over a given date range.

Payroll Code	Description	Total
RD	On Duty (I)	\$32,040.00
+	Overtime (SOD)	\$720.00
s	Sick Leave (S)	\$480.00
V	Vacation (V)	\$480.00
		\$33,720.00

Features and benefits:

- Displays the financial impact of any code in the organization
- Shows date in any date range, and can be further isolated by employee rank
- Defines data by area, region, person, unit, position, rank, shift, or work code
- Enhances budget preparation, and forecasts organizational costs based on historical patterns
- Calculates estimated costs by multiplying the work code rate by the number of hours used by the wage of the employee
- May be printed, faxed, or exported in Excel-supported formats

The Cost Report represents an approximate cost associated with work codes and is not intended for use in payroll reporting.

Exceptions Report

The Exceptions Report identifies work exceptions on a day-by-day basis for the staffing activity.

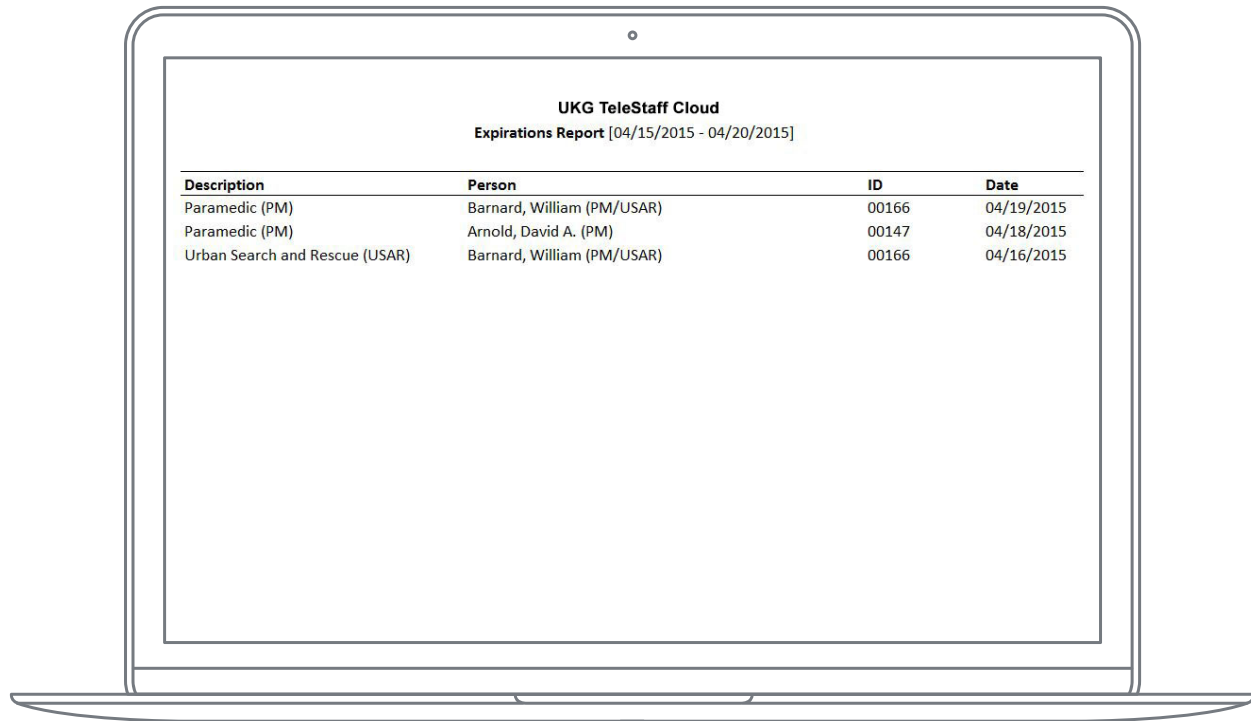

UKG TeleStaff Cloud					
Exceptions Report [09/04/2014 - 09/06/2014]					
09/04/2014	C Shift			Total

2000007	Zastrow, Steve	(C) FF	24.00	E	EO - Martinez, Ronald V. (HM)

Features and benefits:

- Details events that cause exceptions, and tracks total exception work code hours
- Supports reasons why overtime was required in specific situations
- Sorts data by shift, rank, or individual employee over any date range
- Isolates and shows data by district, person, unit, rank, shift, and work code
- Identifies which condition caused the need for the work exception — for example, sick leave, holiday, etc.
- Provides a list of all staff members using a specific pay code on a specific day and how many hours each used
- May be printed, faxed, or exported in Excel-supported formats

Expirations Report

The Expirations Report tracks specialty expiration dates and displays other types of expiring activities and documents, such as physical exams and driver's licenses.

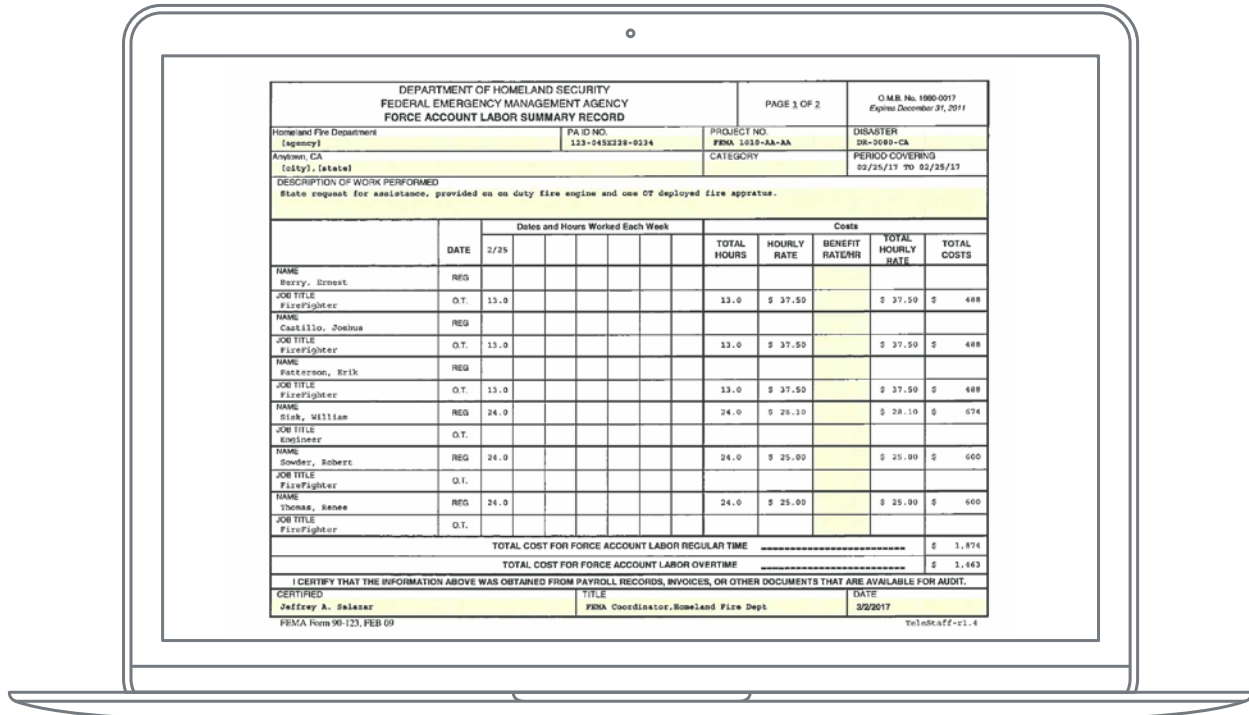

Description	Person	ID	Date
Paramedic (PM)	Barnard, William (PM/USAR)	00166	04/19/2015
Paramedic (PM)	Arnold, David A. (PM)	00147	04/18/2015
Urban Search and Rescue (USAR)	Barnard, William (PM/USAR)	00166	04/16/2015

Features and benefits:

- Displays all specialties entered in UKG TeleStaff Cloud, showing the employee they are assigned to and renewal or expiration dates
- Allows unlimited specialty fields, enhancing a department's ability to track performance evaluations and yearly physicals
- Warns administrators that an employee may become ineligible for a position if a certification is not renewed
- Can also be used in conjunction with the telephone-based message delivery system to notify employees
- Assists training divisions by helping determine which training sessions would be most valuable
- Provides timely and easy access to those employees whose certification(s) will expire
- Filters by date range, ranks, shift, and individual employee
- May be printed, faxed, or exported in Excel-supported formats

FEMA Report

The FEMA Report, populated through the FEMA module, will automatically prepopulate FEMA Report data fields with necessary information exported directly from UKG TeleStaff Cloud, saving agencies valuable time and resources.

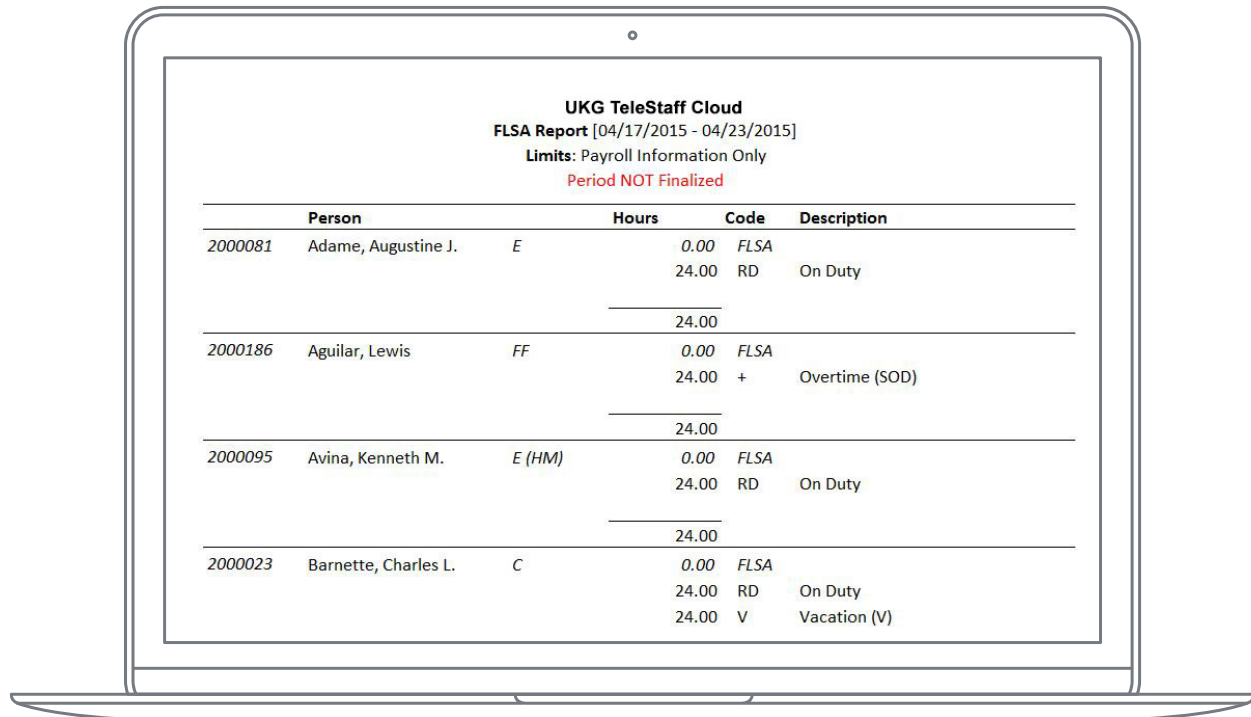

Features and benefits:

- Automatically passes data to FEMA Form 90-123R with necessary data in UKG TeleStaff Cloud needed for FEMA reimbursement
- Runs queries on work codes and account codes based on a user-defined date range

FLSA Report

The FLSA Report displays a total of FLSA hours per staff member.

UKG TeleStaff Cloud			
FLSA Report [04/17/2015 - 04/23/2015]			
Limits: Payroll Information Only			
Period NOT Finalized			
Person	Hours	Code	Description

	24.00	V	Vacation (V)

Features and benefits:

- Displays work codes and descriptions
- Provides a total number of hours worked over a targeted date range
- May be printed, faxed, or exported in Excel-supported formats

Logging Bucket Report

The Logging Bucket Report displays logging bucket totals. To populate the columns, advanced configuration of rules, logging buckets, and work codes are required. The report is used to view total hours per person for the selected time period. The Logging Bucket Report is ordered by person. Logging totals display depending on your configuration, such as Logging Bucket Dates rule, Logging Bucket Numbers rule, and Logging Bucket behaviors, bucket from and through periods, and more.

Person	Bucket	Period Start	Period End	Hours	Count	Offer Date 1	Offer Date 2	Offer Date 3	Offer Date 4	Date Created	Offer Count	Offer Moment	Warning Count

Brown, Lyle	Schedule	01/01/2021	01/01/2022								1	May 3, 2021, 1:11 PM	0

Features and benefits:

- Displays configured logging bucket variables for a defined employee, logging bucket period, or multiple periods
- Report is useful for gauging the current or historical consumption of hours, such as overtime or acting-out-of-class hours
- Report can be filtered by person(s) and/or logging bucket
- Offers the ability to create a custom Logging Bucket Report with BIRT
- May be printed, emailed, or exported in Excel-supported formats

Login History Report

The Login History Report allows managers to track who logged in to UKG TeleStaff Cloud during a given date range.

Features and benefits:

- Provides the name of the person who logged in, including the person's authority
- Displays how the person logged in to UKG TeleStaff Cloud
- Details when the person logged in and logged out
- May be printed, faxed, or exported in Excel-supported formats

Multiday Roster Report

The Multiday Roster Report shows who is or is not working for a date range in a cross-tabulation-style report.

UKG TeleStaff Cloud										
Multiday Roster Report

	Dixon, Kathleen	RD		RD		RD				
	Nicole, Day	RD		RD		RD				
	Moore, Kim		RD					RD		RD
	Cox, Kathy	RD		RD		RD				

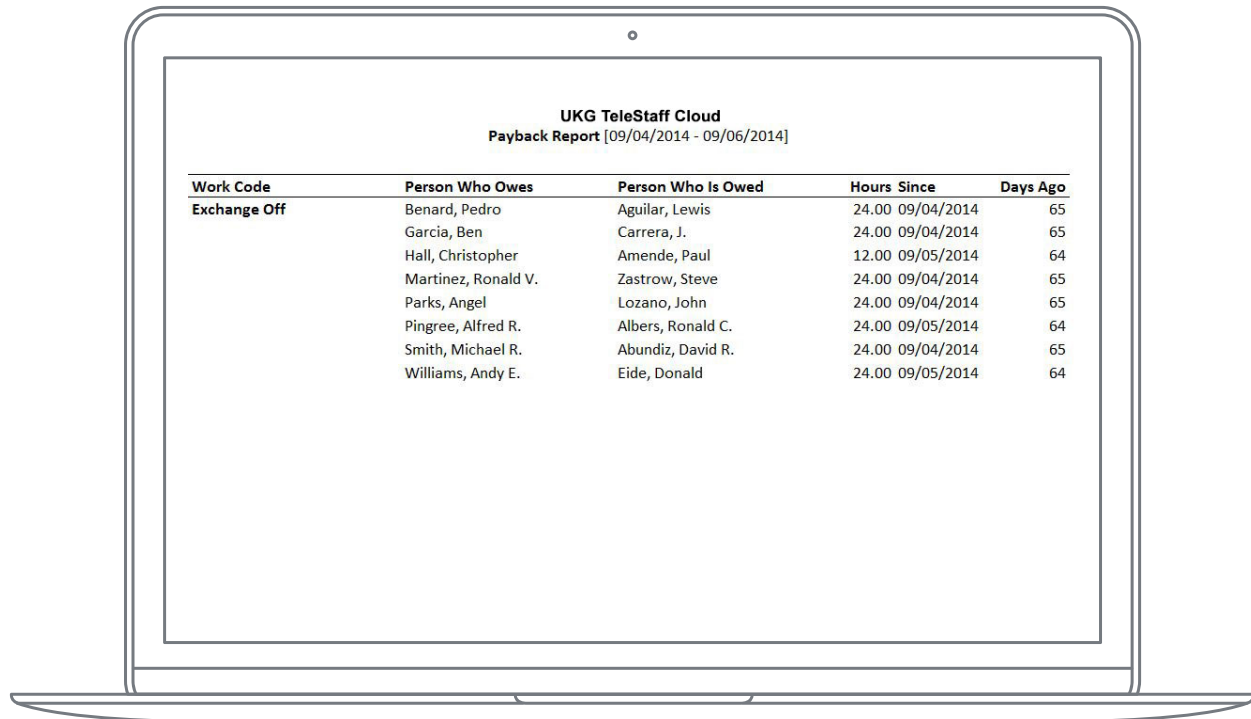

Features and benefits:

- Provides a day-to-day view of staffing assignments at a glance
- Displays resources and working and nonworking codes
- Helps supervisors realign resources as needed to control labor costs and balance the scheduling of training, meetings, and floating or extra days
- May be printed, faxed, or exported to multiple file formats

The Multiday Roster Report is delivered as a standard report; however, if further customization of the report is required, customer organizations must install the supplied BIRT reports designer for further modification.

Payback Report

The Payback Report tracks payback balances (shift trades) that occur within a given date range. It displays each code, which is tracked and followed by an alphabetical listing of employees who owe for that code.

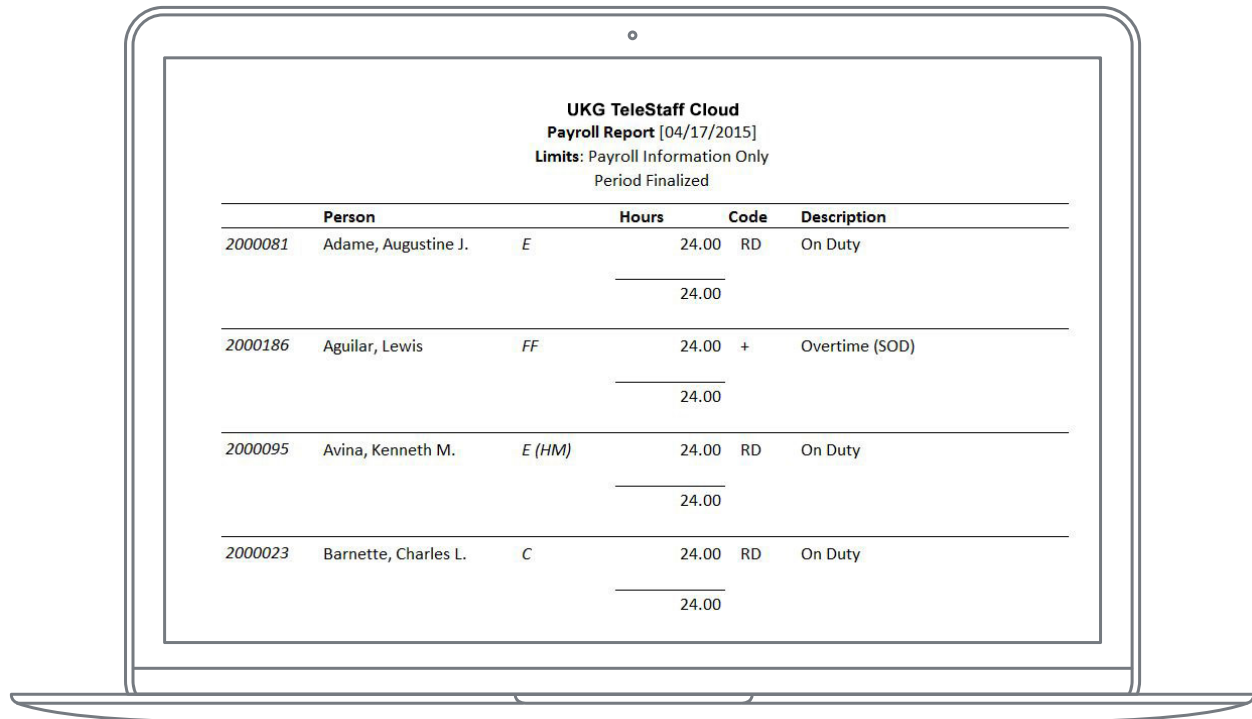

Work Code	Person Who Owes	Person Who Is Owed	Hours Since	Days Ago
Exchange Off	Benard, Pedro	Aguilar, Lewis	24.00 09/04/2014	65
	Garcia, Ben	Carrera, J.	24.00 09/04/2014	65

	Williams, Andy E.	Eide, Donald	24.00 09/05/2014	64

Features and benefits:

- Displays a list containing each work code
- Lists each staff member who owes a payback or shift trade
- Automatically removes a shift trade from the report after it has been paid back
- May be printed, faxed, or exported in Excel-supported formats

Payroll Report

The Payroll Report shows how many hours of each organization-defined pay code are used during any user-defined payroll period.

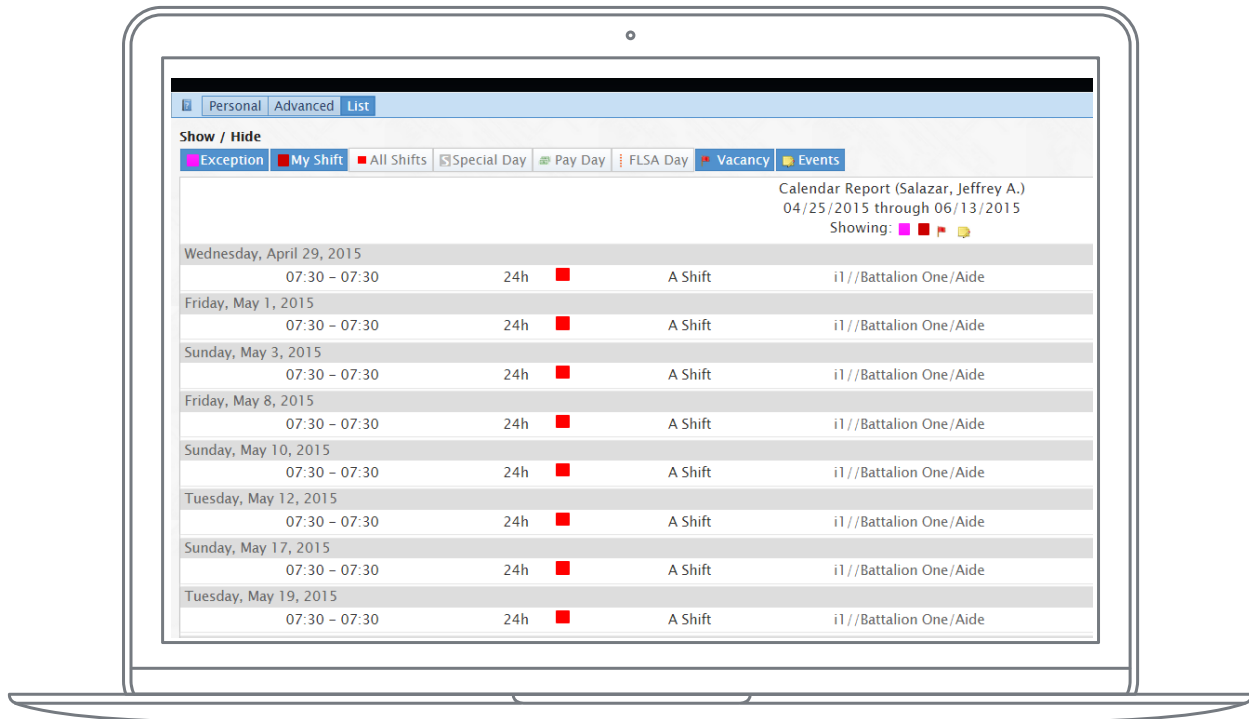

UKG TeleStaff Cloud					
Payroll Report [04/17/2015]					
Limits: Payroll Information Only					
Period Finalized					
	Person		Hours	Code	Description

			24.00		
2000023	Barnette, Charles L.	C	24.00	RD	On Duty
			24.00		

Features and benefits:

- Is easily accessed from the UKG TeleStaff Cloud calendar by clicking the payroll icon
- Displays hours recorded under each payroll-relevant working and nonworking code for each employee during a specified period
- Accurately and easily reports payroll hours to payroll administrators, and is sorted by employee name with employee ID (user, payroll, other) displayed
- Shows as finalized when a payroll report has been verified and approved by appropriate management personnel
- Can be filtered by date range, district, pay information, unit, position, work code, rank, shift, or individual employee
- May be printed, faxed, or exported in Excel-supported formats

Personal Calendar Report

The Personal Calendar Report gives each employee access to a personal calendar report detailing that person's shifts, exceptions, paydays, FLSA period, and much more.

Features and benefits:

- Provides a detailed listing of shifts, exceptions, paydays, special days (holidays), FLSA period, events, and notes
- Details date, time, unit, and shift of a specified date
- Provides each employee's name and title or rank
- May be printed, faxed, or exported in Excel-supported formats

Personal History Report

The Personal History Report displays detailed information about all work codes assigned to staff members.

Features and benefits:

- Shows the history of staffing or working exceptions associated with staff members over a specified date range
- Allows employees to easily access their own staffing records
- Enables managers to easily review each employee's staffing history
- Creates an audit record of all employee activity
- Allows employees to view hours they have accrued for vacation, sick leave, or any other code that can accrue time
- May be printed, faxed, or exported in Excel-supported formats

Position Closure Report

The Position Closure Report returns the apparatus and position that are disabled or enabled when the Roster > Disable/Enable Unit feature is applied. The ability to add notes upon disabling or enabling a unit or position allows better historical justification for the outage.

Features and benefits:

- Displays the Roster history of enabling/disabling positions distinctly
- Roster comments added when enabling/disabling the units or positions are reflected in report
- Includes the length of time a position has been disabled
- Offers the ability to create a custom Position Closure Report with BIRT
- May be printed, emailed, or exported in Excel-supported formats
