

# UKG for Special Districts

## Streamline processes, improve the employee experience

Whether you supply water, transportation, utilities, or other essential services, the UKG full-suite human capital management (HCM) solution is here to help you and your employees deliver more value to the people you serve every day.

UKG® for Special Districts streamlines workflows, simplifies bidding and scheduling, automates attendance and leave policies, and provides employee self-service tools that save time and boost employee engagement — all while helping you create the kind of positive and supportive culture where people aspire to work.

With a UKG for Special Districts HCM solution, you can better manage labor costs, minimize compliance risks, and improve the employee experience.

And if you have an ERP platform, our solution can integrate with it easily to help center HR as a priority within your organization — especially important when finding and keeping top employees in today’s challenging hiring landscape is a critical need.

Offer Employee Self-Service

Streamline Workflows

Automate Attendance & Leave Policies

Simplify Bidding

Optimize Scheduling

### Simplify day-to-day priorities

Get the insights you need to make the best decisions about staffing, benefits, payroll, absence management, and more; streamline processes for optimum efficiency.

### Optimize operations

Monitor and understand your people costs to help ensure compliance, minimize overtime, and stay within budget.

### Build a culture of belonging

Gain visibility into your people data to promote Diversity, Equity, Inclusion, and Belonging; attract and retain top talent; and make your organization a Great Place To Work®.
