

Data Extraction Tool

Harness the power of UKG Pro Workforce Management data across enterprise systems

UKG Pro Workforce Management™ (formerly UKG Dimensions®) is designed to help your organization manage the workforce of the future — today. This powerful application suite leverages the latest technologies to streamline workforce management practices, provide actionable intelligence, and empower and engage your most valuable resource: your people. UKG Pro Workforce Management can deliver even greater value when it operates as part of a seamless digital ecosystem that spans all areas of your organization. By harnessing the power of UKG Pro Workforce Management data across your enterprise systems, you can unlock new insights and better understand how the workforce affects overall business performance.

The Data Extraction Tool, implemented by UKG Services, enables you to share UKG Pro Workforce Management data with other key business systems, such as customer relationship management, enterprise data warehouse, enterprise resource planning, point of sale, finance, and other solutions. By bringing together workforce and other operational data, the Data Extraction Tool allows you to gain broader enterprise visibility and key strategic insights for better business outcomes.

Ready, set, connect!

As the foundation of the UKG Pro Workforce Management solution, the intelligent UKG Platform lets you work in a modern cloud that leverages new technologies and works seamlessly with your existing systems. The UKG Platform incorporates the Boomi integration platform as a service (IPaaS) to support all integration processes between cloud platforms, software-as-a-service applications, and on-premise systems. The Data Extraction Tool is available out of the box with Boomi integration technologies.

UKG Services can rapidly implement the Data Extraction Tool as a seamless component of your solution set, thereby making UKG Pro Workforce Management data available to specified applications across the enterprise. Authorized end-users can schedule and execute integration processes directly from the UKG Pro Workforce Management interface. And because data processing, summarization, and preparation all occur within your secure UKG Platform tenant, you can rest assured that your workforce data is always well-protected.

Key benefits

Access critical data from UKG Pro Workforce Management starting on dayone
