Are you interested in migrating to UKG Pro Workforce Management?

You've decided to streamline your workforce management process and optimize your employee experience with UKG Pro Workforce Management™ (WFM), formerly known as UKG Dimensions. But what's next? How can you ensure you're prepared for deployment? Our UKG Pro WFM Readiness Assessment is carefully designed to help your organization assess your overall readiness and best prepare you for a strong start with your UKG Pro WFM solution.

UKG Services

Our UKG® Services team will guide you down the right path by identifying areas where you can apply technical and business process improvements. The team will then present an executive dashboard summary and a comprehensive report detailing these findings as well as actionable recommendations for migrating to your Pro WFM solution.

Part checklist and part journey map, the recommendations within the report help you create an environment consisting of technical, business, and functional best practices to achieve the most successful migration possible. If you want to make sure you have a comprehensive review before making the move, we have the answer.
