

Solve Your Multi-Country Payroll Puzzle with UKG One View™

The current multi-country payroll landscape is incredibly complex. Large, multinational organizations need a solution that can meet six key goals:

-  1 Pay employees timely and accurately
-  2 Manage global cash flow
-  3 Gain business insight
-  4 Deliver a consistent employee experience
-  5 Optimize labor spend
-  6 Decrease total cost of ownership

But how can you meet these goals with **patchwork solutions** that simply don't stack up?

Introducing **UKG One View**, the future of multi-country payroll.

Seamlessly manage schedule-to-fund processes

With One View, you can control the entire employee payment process in a single solution.

UKG One View offers payroll execution services in:

20+ Languages | **120+** Currencies | **160+** Countries

Experience uniform workflow control

One View offers real-time monitoring and KPIs to ensure you meet local, state, and global compliance requirements.

70% of companies surveyed think it's very important to access their multi-country payroll through a single standardized system.¹

Achieve end-to-end visibility through one intelligent solution

The hybrid deployment of One View allows you to maintain existing in-country providers or technologies but have immediate visibility across your entire process.

3.7 A recent survey found that the average respondent uses 3.7 third-party payroll technologies to manage multi-country payroll.²

Benefit from consistent employee experience

One View delivers a globally compliant pay slip, wherever your people work. Loyal, engaged, and productive employees are good for your bottom line.

49% of workers will begin searching for a new job after only two payroll errors.³

Let all the pieces of your multi-country payroll puzzle fall into place with one view across your entire global workplace. One amazing experience.
