

ACA Manager

Make ACA compliance easy and automatic.

UKG Ready® ACA Manager enables organizations to easily manage Affordable Care Act compliance by streamlining the collection of employees' hours and monitoring of important metrics such as measurement periods, fluctuation of employees' hours, and benefits eligibility. Proactive alerts provide critical information when you need it most to help you effectively manage your ACA strategy.

Automated Policies

Adhering to the latest ACA policies is paramount. Our comprehensive, automated rules engine helps ensure policies are enforced consistently and fairly across all of your employees, minimizing compliance risk.

Closed-Loop Administration

With the UKG Ready solution, you'll have a single record for each employee, allowing you to bring in pertinent information from time, HR, and payroll — giving you an effective closed-loop ACA administration process.

Simplified Year-End Process

IRS forms 1094-C and 1095-C and files for submission in either IRS AIR or state-specific formats, for submission are auto-populated based on the trusted information collected throughout the year. This, combined with an easy-to-follow in-product checklist, makes the year-end process a nonevent.
