Superior implementation strategy alongside industry experts

## Why UKG and Worldgate?

UKG™ for K-12 works with school districts of all sizes to create time and attendance efficiencies, allowing employees and leaders to spend less time on administrative processes and more time on academics and programs. Tools that simplify extra-duty time tracking, minimize compliance risk, improve visibility into sub time, and enable data-driven decisions take your workforce from transactional to transformational.

To ensure the success of our K-12 customers, UKG (Ultimate Kronos Group) has exclusively partnered with Worldgate, llc, to deliver an unparalleled experience from beginning to end. This partnership provides the best of both worlds. The UKG for K-12 solution, combined with Worldgate’s superior implementation strategy, gives customers confidence that the solution, and the workforce, will be ready for go-live.

Worldgate, an ISO-certified 9001:2015 women-owned business, brings more than just implementation experience to the table. Their methodology takes all that encompasses a successful rollout into consideration. There are three areas in which Worldgate’s offerings differ from what school districts are familiar with.

Guide

**Expert guidance** – Implementing a new system raises many considerations that can impact success. Worldgate has extensive experience to steer you in the right direction.
