Automating Time and Attendance for Staffing Agencies

Solution Guide

Empower your staffing agencies with time and attendance solutions.

Keeping track of time is at the heart of your workforce — and your business. By understanding when your people, across both agency and client staff, are working and what they are doing, you can gain the kind of insight that **saves valuable time and labor dollars** — and **increases your bottom line**.

UKG (Ultimate Kronos Group) **simplifies** the tedious tasks involved with monitoring employee time and attendance, labor tracking, and data collection. Our completely automated time-tracking software — working in tandem with our data-collection devices — **helps you engage your workforce** as you **control labor costs, minimize compliance risk, and improve workforce productivity**.

Get a fix on the problem:

- Timekeeping errors

The UKG Ready™ solution is extremely robust and customizable, allowing us to adapt to client requests. We haven't had to increase headcount in any way to handle a client with more than 600 employees. With the processes we had before, we would have had to hire at least another two payroll people and an administrator.

In the morning, I walk into my office, I pour a cup of coffee, and before my coffee gets cool enough to drink, I have processed payroll that took me and two other FTEs two full days to complete before I implemented UKG.
