

UKG

UKG at work in
Local Government

For many local governments, labor is the costliest and most controllable expense. Some of the more transactional aspects of managing the workforce are areas that could benefit from increased efficiency. UKG™ (Ultimate Kronos Group) can help. UKG for Local Government solutions automate highly repetitive processes, including time and attendance, absence management, and scheduling, for greater productivity and cost savings.

CRITICAL BUSINESS ISSUES

Minimize compliance risk

Labor laws, such as the Fair Labor Standards Act (FLSA), and collective bargaining agreements contain complicated provisions that can be difficult to understand. They are often left to managers to interpret, which can lead to unintended violations. With UKG for Local Government, your pay rules are preconfigured and audit trails provide detail when the burden of proof is put on the employer.

Improve visibility into leave liability

Managing absences and policies like the Family Medical Leave Act (FMLA) require a careful eye and plenty of oversight. Employees without access to their accrual balances are at risk of taking more time than they have accrued. Automation beyond the functionality of an enterprise resource planning solution makes tracking absences manageable and cuts down on leave inflation.

Apply accurate scheduling

Manually generating schedules can be a daunting task. Factoring in time-off requests, certifications, and qualifications requires a skilled person and many hours. UKG for Local Government takes the guesswork out of building schedules — putting the right people in the right place at the right time — and frees managers from unnecessary administrative work.

Make data-driven decisions

Having real-time, readable data at your fingertips could open up valuable new visibility into employee trends and patterns. UKG for Local Government captures in/out punches and employee leave, and the data in an automated system that can be easily accessed from anywhere.

Improve visibility into leave liability

MANAGE YOUR WORKFORCE IN LOCAL GOVERNMENT

UKG for Local Government solutions help control costs, minimize compliance risk, and maintain accuracy, accountability, and transparency — all critical to meeting your objectives for saving budget dollars and protecting services.

For us, a main differentiator with UKG is their rules-based engine that allows both simple and very complex pay and work rules to be configured in the application without customization.

Annick Nguyen

Systems Manager
Santa Clara County, CA

Employees take more pride in their time and attendance now and can manage their accruals more efficiently because they can see them, which they couldn't prior to UKG. They are empowered to be more engaged in their jobs.

Cindy Brown

County Treasurer
Denton County, TX

UKG automatically puts people where they need to be, and it's a lot less work to work on the schedule. Now I spend only half an hour a day tweaking the schedule.

Sgt. Rodolfo Padilla

Operations Sergeant
Las Vegas Department of Public Safety, NV

We've made good progress in the last 5-6 years in part due to good labor data to make better decisions, which leads to cost savings and enhanced services for our residents.

TJ Plante

Chief Administrative and Financial Officer, City of Springfield, MA
