

# Government Contractor Uses UKG Product Suite to Optimize People Information Management

Through contracts awarded by the U.S. federal government, J&J Worldwide is tasked with providing healthcare-environmental services, construction management, and operations and maintenance services to military bases around the globe. A UKG customer since 2013, the company achieved breakthrough success using UKG Pro (formerly UltiPro) to monitor and track fringe benefits in accordance with federal law.

Employees: 2,000  
Industry: Professional Services

## Top Challenge

In 2020, J&J Worldwide looked to UKG for an integrated time solution, and chose UKG Ready (formerly Kronos Workforce Ready).

## Solutions

When Ready was activated, a tab became available in Pro to let the company quickly add employees to time and scheduling.

HR can select an employee, and then enter schedule information, holiday eligibility, and employee role.

UKG Ready app was set up to enable employees to do everything they could do at a computer, remotely.

## Results

UKG Pro's recruiting and onboarding functionality enable HR information to flow electronically through the solution, saving the company substantial time and energy.

UKG support and service have been consistent with the world-class partnership the company has enjoyed since 2013.

## Key Benefits

- The combination of UKG Pro and UKG Ready in one platform is creating synergies that drive the business forward
- The addition of UKG's expertise in time and scheduling has been seamless from a technology standpoint
- The UKG Ready app is empowering for the significant number of employees who work in the field and can't log in at a desk

“UKG Ready has been great, and it is integrated with UKG Pro.”

Loren Seaman, benefits administrator

## Challenges

In 2020, J&J Worldwide looked to UKG for an integrated time solution, and chose UKG Ready (formerly Kronos Workforce Ready).

## Solutions

“UKG Ready has been great, and it is integrated with UKG Pro,” said Loren Seaman, benefits administrator for J&J Worldwide. “When we activated Ready, a tab became available in Pro that lets us quickly add employees to time and scheduling. HR can select an employee, and then enter schedule information, holiday eligibility, and employee role. With a single input, everything we need is available in Ready, and managers can see their employees in Ready.”

Seaman reported that the company’s employees, already accustomed to the convenience of the UKG Pro mobile app, are also taking advantage of the UKG Ready app to complete timesheets and request time off.

“We set up the UKG Ready app to enable employees to do everything they could do at a computer, remotely,” said Seaman. “This quick and easy access is especially empowering for the significant number of employees who work in the field and can’t log in at a desk.”

## Results

According to Seaman, the combination of UKG Pro and UKG Ready in one platform is creating synergies that drive the business forward.

“We are experiencing significant growth due to the demand for healthcare-environmental services during the pandemic,” said Seaman. “UKG Pro’s recruiting and onboarding functionality enable HR information to flow electronically through our solution, saving us substantial time and energy. The addition of UKG’s expertise in time and scheduling has been seamless from a technology standpoint, and support and service have been consistent with the world-class partnership we have enjoyed since 2013.”
